**100% ECO-FRIENDLY MATERIAL**

INDEX

# { PAPER MATERIAL }

WHY ARE PAPER PACKAGING A GOOD CHOICE?

## Why Choose Ec-friendly Material?

Eco or ecology is about relationships: how we relate to our environment and each other. The Eco-friendly Series has been designed with the environment in mind at every stage – from sourcing materials and manufacturing to distribution and end-of-life disposal. Eco-friendly packaging signals our commitment to forming a healthy, balanced relationship with our environment and with our customers.

Our eco-friendly packaging are made from sustainable, natural raw materials and are biodegradable, compostable and recyclable – without compromising on function or quality. Every action we take has an impact on our environment. The Eco-friendly Packaging Series takes the guess work out of environmental responsibility. Make the switch to sustain your relationship with the environment. I am committed to the environment.

### ECO-FRIENDLY

100% Renewable, Compostable and Recyclable, no Pollution.

### FSC CERTIFICATE

We only cooperate with material supplier with FSC Certificates.

### 100% BREAK DOWN

Unlike degradable plastic bag, paper bags break down completely.

### REUSABLE

Durable & Re-usable, great for shopping & transporting food.

### PACKING-FAST

Self-standing base, easy to fill and great for fast packing!

### PERFECT PRINTING

High quality printing effect, perfect for brand presentation.

### HEAVY DUTY

Very Strong & Heavy Duty that can hold up to 14KG in weight.

### COMFORTABLE HANDLE

Comfortable Handles that do not cut into user's hands.

## PAPER IS THE SOLUTION

Plastic bag bans or levies have been introduced in numerous countries worldwide over the past several years. From the USA to United Kingdom and Australia, everyone is introducing laws to minimise the impact that plastic bags have on our natural environment.

If not disposed of properly plastic bags can pollute waterways, clog sewers and have even been found in oceans affecting the habitat of marine animals and contributing to plastic waste gyres such as the Great Pacific Garbage Patch.

# { PLA BIO-PLASTIC }

NEW SOLUTION OF ECO-FRIENDLY CATERING FOOD PACKAGING.

## PLA LINING ON PAPER

Polylactic acid (PLA) is a natural starch derived from plants like corn and sugarcane that is processed to create a clear plastic-like film or bioplastic. Unlike the traditional polyethylene (PE) or polyethylene terephthalate (PET) plastics, these innovative films and bioplastics are annually renewable, naturally biodegradable and compostable. They can be used to line and protect paper and board packaging as well as moulded into cutlery and container lids.

## PLA BIOPLASTIC BAGS

It's not surprising that PLA bioplastics are a good solution for plastic pollution. We think that bags made from PLA are a positive step toward a world less dependent on oil and more focused on renewable solutions. What's more, using the PLA Bioplastic bags as takeout packaging will not alter the flavour and smell of food they store. We insist that will also improve experience and enhance image of your brand! Let's make the switch now!

### 100% BIODEGRADABLE

Unlike degradable plastic, PLA Bioplastic can be 100% break down into CO2 & Water.

### FAMOUS CERTIFICATES

Can be passed test of EN 13432 & ASTM D6400, Biodegradable & Compostable.

### RENEWABLE SOURCE

Made of Natural & Renewable material, not reliant on fossil fuels.

### REDUCE POLLUTION

Reduce the Carbon Footprint and Plastic Waste, which pollutes the environment.

## BIODEGRADABLE AND COMPOSTABLE

Products that are biodegradable and compostable will break down into natural elements within 90 days when treated in a commercial facility, as defined by European standard EN13432. The nitty gritty: Where products are correctly described as compostable, this refers to their suitability for treatment at a commercial composting facility where products are subject to optimum amounts of sunlight, temperature and moisture to break down. You can also place our compostable products in your home compost, but the time it takes to break down will depend on how well you tend your compost heap. Compostable = biodegradable, but fast!

**SIZE&THICKNESS:** Customized  
**PRINTING:** Custom Design

**ITEM:** Spoons for Soup  
**MATERIAL:** Food Grade PP/PET  
**SIZE&THICKNESS:** Customized  
**PRINTING:** No Printing

## CUTLERY & OTHER ACCESSORIES

1. 100% Food Grade & Eco Material.
2. Good Choice of One-stop.
3. Order in one place, Save your Money & Time

**ITEM:** Napkins  
**MATERIAL:** 100% New Pulp  
**SIZE&THICKNESS:** Customized  
**PRINTING/Embossing:** Custom Design

**ITEM:** Cutleries  
**MATERIAL:** Food Grade PP/Wood/PLA  
**SIZE&THICKNESS:** Customized  
**PRINTING:** No Printing

**ITEM:** Cutlery Sets  
**MATERIAL:** PP Bag+Pulp+PP Material  
**SIZE&THICKNESS:** Customized  
**PRINTING:** Custom Design

**ITEM:** Chopsticks for Chinese Food  
**MATERIAL:** Food Grade Paper+Wood  
**SIZE&THICKNESS:** Customized  
**PRINTING:** No Printing

**ITEM:** Bill of Fare/Menus  
**MATERIAL:** 100% Eco Art/Recycled Paper  
**SIZE&THICKNESS:** Customized  
**PRINTING:** Custom Design

**ITEM:** Brochures  
**MATERIAL:** 100% Eco Art/Recycled Paper  
**SIZE&THICKNESS:** Customized  
**PRINTING:** Custom Design

**ITEM:** Grease-proof Wrapping Paper  
**MATERIAL:** Food Grade Grease-proof Paper  
**SIZE&THICKNESS:** Customized  
**PRINTING:** Custom Design

**ITEM:** Stickers  
**MATERIAL:** Paper & Stickers  
**SIZE&THICKNESS:** Customized  
**PRINTING:** Custom Design

**ITEM:** Flexible Packaging for Food  
**MATERIAL:** Laminated Material Like AL Foil  
**SIZE&THICKNESS:** Customized  
**PRINTING:** Custom Design

## WHY CHOOSE MAIBAO?

### AWARD-WINNING

We have been making effort to provide professional & practical packaging solutions to customers around the world since 1993! During development over 2 decades, we proud that we have rewarded as China Famous Brand, Eco-friendly Corporation, Trustworthy Quality Manufacturer and so on. Also we have built-up long term partnership with Marriott, Uber Eat, Foodora and Menulog. These awards help us attract and retain the most talented minds in the packaging business — and that's what keeps us creating the solutions that will help you shine too.

### RELIABLE QUALITY

Quality has always been the cornerstone on which we rely on development. Quality to us means perfection, not 'near enough is good enough'. That starts from beginning of our career. We purchase equipments and material from top grade company like Heidelberg & Sinopec. And our QC team will check every step of the production according to high standard. All these is because we want to provide you high-quality packaging to light-up your brand value!

### STRONG CAPACITY

Production Capacity means how fast we can meet the needs of our customers, and it also represents the guarantee of our delivery time. It is no no surprise that production capacity have became the core competitiveness of supplier. With advanced system of production management & supply chain, we are confident to help you find the best solution for packaging. Over 1000 containers exporting volume and 20+ production lines is our ability to help you turn your idea about packaging into reality.

### REAL RESPONSIBILITY

Corporate social responsibility can be a box-ticker, or it can be a genuine desire to take care of the communities and environments in which we operate. FSC, a global forest certification system to ensure that products come from responsibly managed forests that provide environmental, social and economic benefits. It is just one of the essential certifications for all of our suppliers. We can proudly inform all our customers that we're corporation with responsibility for society & environment. Also one of our principle that never changed is we only work with responsible company.

### ONE-STOP SOLUTION

You may be suffering from order packagings from several suppliers. It takes longer time and more money to finish your purchasing. And the quality and delivery time is much more difficult to manage. If so, we are the right company you're looking for. Luckily we have over 2 decades experience as a one-stop packaging solution expert. One-stop Solution means we provide products and service only based on your need. So that you can order and manage all your packagings in one supplier. Save the cost and leave time for you to focus on your business!

*Exceed Your Expectation for Packaging!*

# OUR VISION AND MISSION

Our vision is to be the first class packaging solution service provider and best employer in the world.  
Our mission is to make merchandises in the world more beautiful and valuable.

## OUR VALUE

Our value can be condensed into following words:

**CUSTOMER FIRST, TEAMWORK, EMBRACE CHANGE HONESTY, PASSION & DEDICATION.**

[INDEX](#)

# MAIBAO SUSTAINABLE VALUE

**Over** the past two decades, we always deliver the sustainable value by providing high-quality products and packaging solution based on our values. We commit ourselves to continue to create value into the future and the next generations.

## Trust& Respect

To build inclusive and egalitarian partnerships with all customers, honesty of purpose, mutual trust and respect.

## Customer value creation

Enabling customers to become high-performance businesses through our packaging solutions and creating long-term relationships by being responsive, relevant and consistently delivering value.

## Innovation

Strive to be the front runner in technology and business, actively contributing to the evolution of best practices in developing and efficient packaging solutions to address customers' dynamic needs.

## Socio- environmental

Responsibility Upholding that society and environment are cornerstones for sustainability. we support and promote inclusive social development and strive towards conservation of environment and protection of our planet.
